

PRESS RELEASE

Recruitment Drive Phase II to Open New Employment Opportunities for Youth in South West Garo Hills

AMPATI, August 12: The upcoming Recruitment Drive – Phase II is set to provide an important platform for young job seekers in South West Garo Hills to connect with employment opportunities, understand industry requirements and explore diverse career pathways.

In a special message to the youth of the district, the Deputy Commissioner, South West Garo Hills, highlighted the significance of the upcoming recruitment initiative and encouraged eligible youth to make the most of the opportunity.

The Recruitment Drive is aimed at bridging the gap between skills and employment, providing skilled youth and aspiring professionals an opportunity to showcase their capabilities and connect with potential employment opportunities.

The Deputy Commissioner urged young people, particularly fresh job seekers and skilled youth, to come forward, prepare themselves and actively participate in the recruitment process. The initiative carries a clear message for the youth: skills can open doors to employment, while preparation and participation can turn opportunities into careers.

The district administration has encouraged interested youth to register for the Recruitment Drive – Phase II, prepare their necessary documents and credentials, and make full use of the platform to explore suitable employment opportunities.

The Recruitment Drive reinforces the broader objective of promoting youth empowerment, skill development and sustainable employment, while enabling young people to translate their skills and potential into meaningful career opportunities.
