

ADVISORY

In the interest of public safety and to prevent any untoward incidents along the Shillong-Dawki road, all tourists, visitors, and commuters intending to travel to Dawki to avoid the **Shillong–Pynursla–Dawki road** until further notice due to the high risk of landslides, falling rocks, and road blockages caused due to ongoing road construction activities along the route. For safety reasons, travelers are advised to take the **alternative route via Shillong – Jowai – Amlarem – Dawki**, which is presently considered a safer option for reaching Dawki and adjoining tourist destinations.

All travelers are advised to:

- Avoid unnecessary travel through the Shillong–Pynursla–Dawki road.
- Follow directions issued by local authorities and traffic personnel.
- Check weather forecasts and road conditions before commencing their journey.
- Exercise caution while travelling, especially during periods of heavy rainfall.
- Dial 112 for assistance during disaster.

Deputy Commissioner & Chairperson (DDMA)
East Khasi Hills District, Shillong
Dated Shillong the 11th June, 2026
